

Assembled Engineered Systems

785/89HTO UpFlow Series Whole House Water Refining System

A Complete Water Refining System For Your Home

Rid your water of hardness minerals (calcium and magnesium) plus filter out bad tastes and odor caused by chlorine, chloramines or organic matter.

The unique two tank system keeps the two media beds separate, allowing for more carbon contact which greatly improves the removal of chlorine, chloramines and organics. Because the carbon typically needs to be replaced before the softening resin, the two tank system allows for easy cost effective replacement. You get the same benefit as a separate water softener and whole-house carbon filter for a much lower price as the single control valve operates both systems.

Now you can enjoy truly refined water throughout your home!

- ➔ Great tasting water
- ➔ Odor-free. No chlorine!
- ➔ Soft skin & silky hair
- ➔ Spot free dishes
- ➔ Brighter laundry
- ➔ Easier cleaning
- ➔ Protect plumbing & water-using appliances from scale build-up

*Soft, Clean
Truly Refined
Water*

Assembled Engineered Systems

Automatic Whole House Water Filter Series

Problem Water Is No Problem! When you install a whole-house automatic water filtration system your water problems will disappear. Rid your water of troublesome iron, sediment, bad tastes, stains, color and odors.

Types of Filters:

Manganese Greensand Plus Filters – Iron, manganese and sulfur are oxidized into solids and trapped in the filter bed where they get flushed to the drain

Birm Filters - Remove soluble or precipitated iron without the use of expensive or messy chemicals

Taste & Odor Filters – Remove bad tastes and odors caused by chlorine & organics

Neutralizing Filters – Raise the pH of acidic water to neutralize corrosiveness and protect fixtures, pipes and appliances

Multi-Media Filters – Eliminate suspended sand and silt that makes water cloudy

Nexsand Turbidity Filters – Remove suspended solids, Ferric Hydroxide (Red Water Iron) or Sediment from your well or water system down to 5 Microns. Nexsand has proven extremely effective and will provide better flow rates than Multi Media or Sand Filters.

Chloramines Removal Filters – This two tank system uses special catalytically enhanced carbon and provides improved bed depth and contact time for more effective reduction of chloramines.

Options:

- Pressure tanks in black, blue or natural
- Tank jackets with black caps in chrome, grey, blue or vanilla

- 89 valve**
- True 1" porting for high flow rates up to 18" systems. Ideal for larger homes.
 - Large Backlit LCD display screen with 4 line / 80 character touch pad screen.
 - Seven Year Warranty

- 785 valve**
- High flow rates up to 16" systems.
 - Rotating 'No Touch' Information Display (i.e. Date last regenerate, volume remaining)
 - Seven Year Warranty

- 565 valve**
- Simple user friendly 2 line / 32 character display
 - Rotating 'No Touch' Information Display (i.e. Date last regenerate, volume remaining)
 - Seven Year Warranty

- 765 valve**
- Simple electronics with index knob to manually initiate regeneration and select cycle position
 - Five Year Warranty
